

# DIN SCHABLONIERSCHRIFT OPEN HERE! CONTAINS 14 OZ. FIRST FLUSH CANDLE WITH HAIR

DIN Schalbonierschrift ist a Typeface derived from a commonly used set of type stencils in Germany. In 1997 I manually digitised every letter from an original stencil set in all their simplicity.

Feel free to use DIN Schablonierschrift for your work of any kind, be it of commercial or non-commercial nature.

The current version (as of 2012) is an Open Type version but otherwise unmodified from the 1997 outlines.

Note that the type itself is free software under the terms of the following creative commons license:

<http://creativecommons.org/licenses/sa/1.0/>

This means you're allowed to re-distribute the font for free, but you are not allowed to sell it. You can also modify it, but then, if you are re-distributing it, it has to be under the original license.

The home of DIN Schablonierschrift is

<http://www.sendung.de/dinschablonierschrift/>
